

MISSION STATEMENT

The Renfrew Center and The Renfrew Center Foundation are dedicated to treatment, training, research, prevention and advocacy in the field of eating disorders. In a safe and healing community, we provide women with the skills and support to recover from anorexia, bulimia and binge eating disorder, and to create meaningful, satisfying lives.

To Order:

Download form from www.renfrew.org or call 215-482-5353.

The Renfrew Center was established in 1985 in Philadelphia as the first free-standing, residential treatment facility exclusively dedicated to the treatment of eating disorders. Today, The Renfrew Center provides residential and outpatient services at 8 sites in Pennsylvania, Florida, New York, New Jersey, and Connecticut.

The Renfrew Center has helped more than 35,000 individuals with eating disorders and related mental health issues. The treatment philosophy is guided by the conviction that everyone has the right to be understood and respected as unique individuals with their own set of strengths, weaknesses, capabilities, resources and frailties, which can all be utilized in the process of recovery.

The Renfrew Center Foundation, founded in 1990, is a national nonprofit organization advancing the education, prevention, research and treatment of eating disorders. The Renfrew Center Foundation grew out of the work of The Renfrew Center and the need for quality education, research and training about eating disorders. The Foundation is financially supported through the generosity of corporations, foundations, individuals and The Renfrew Center.

Through its programs, The Renfrew Center Foundation aims to:

- Increase awareness of eating disorders as a public health issue by mobilizing individuals and families in recovery and by spreading its body of knowledge across the nation.
- Educate decision makers, including governmental agencies and the media, about the dangers of eating disorders.
- Train professionals in the assessment, treatment and prevention of eating disorders and body image disturbance.
- Research the pathology, recovery patterns and effective treatment options for eating disorders and body image disturbance.
- Raise scholarship funds for those who might otherwise not be able to afford treatment.

Individuals can become more involved with The Foundation's efforts through education and advocacy campaigns and by donating funds to support our programs and scholarships for treatment. Together, with your help, we can build a future where women, men and children have the hope for a healthy life free from eating disorders. For information about The Renfrew Center's services and supporting The Renfrew Center Foundation, please visit www.renfrew.org.
